Concor Construction: Engineering Graduate Internships 2024 New Hiring

Description

Concor Construction is a leading construction company with a rich history spanning over four decades. Our commitment to excellence, innovation, and sustainability has positioned us as a key player in the construction industry. With a diverse portfolio of projects ranging from infrastructure to commercial and residential developments, Concor Construction prides itself on delivering exceptional results while maintaining the highest standards of safety and quality.

Concor Construction is offering an exciting opportunity for recent engineering graduates to join our team as Engineering Graduate Interns. This internship program is designed to provide hands-on experience and mentorship to talented individuals who are passionate about pursuing a career in the construction industry. As an Engineering Graduate Intern, you will have the opportunity to work on various projects alongside experienced professionals, gaining invaluable skills and insights into the world of construction.

Responsibilities

- Assist in the planning and execution of construction projects under the guidance of senior engineers and project managers.
- Conduct site inspections and surveys to assess project requirements and identify potential challenges.
- Collaborate with cross-functional teams including architects, contractors, and subcontractors to ensure project success.
- Assist in the preparation of project proposals, budgets, and schedules.
- Participate in meetings and presentations to update stakeholders on project progress and milestones.
- Utilize engineering software and tools to analyze project data and optimize construction processes.
- Adhere to safety protocols and regulations to maintain a safe working environment for all team members.

Qualifications

- Bachelor's degree in Civil Engineering, Mechanical Engineering, Electrical Engineering, or related field.
- Excellent communication and interpersonal skills.
- Ability to work effectively in a team environment and collaborate with colleagues from diverse backgrounds.
- Proficiency in Microsoft Office Suite and engineering software (e.g., AutoCAD, Revit, MATLAB).
- Prior internship or co-op experience in the construction industry is a plus but not required.
