1. Explore Available Positions:

Visit the Komatsu career website or the designated portal for internship opportunities. Browse through the available positions within the YES Internship Program and select the one that aligns with your interests, skills, and educational background.

2. Prepare Your Application Materials:

- Update your resume to highlight relevant coursework, skills, extracurricular activities, and any prior work or internship experiences.
- Craft a tailored cover letter expressing your enthusiasm for the internship, detailing why you're interested in Komatsu, and how your skills align with the internship role.
- Gather any additional materials requested in the internship posting, such as academic transcripts, portfolio samples, or letters of recommendation.

3. Complete the Application:

- Follow the application instructions provided on the Komatsu career portal or the specific application method mentioned in the internship posting.
- Create an account or log in to the application portal if required. Fill out all necessary fields accurately and completely.
- Upload your resume, cover letter, and any additional documents as specified in the application form.

4. Review and Submit:

- Review your application thoroughly to ensure all information is accurate and all required documents are attached.
- Double-check for any spelling or grammatical errors in your resume and cover letter before submission.
- Submit your application before the specified deadline. Take note of any confirmation emails or tracking numbers provided upon submission.

5. Follow Up (Optional):

- After applying, you may choose to follow up on your application status after a reasonable period, especially if no confirmation or update is received.
- Utilize any provided contact information or reach out through the career portal to inquire about the status of your application.

6. Prepare for Interviews (If Selected):

- If your application progresses to the next stage, prepare for potential interviews. Research Komatsu, its culture, values, and the specific department related to the internship.
- Practice common interview questions and be ready to discuss your experiences, skills, and passion for the heavy equipment industry.
