## Rectron: Drone Academy Learnerships Apply Now

### Description

Rectron is seeking enthusiastic and dedicated individuals to join our Drone Academy Learnership program. This comprehensive program provides hands-on training and theoretical knowledge to individuals interested in pursuing a career in the drone technology industry. As a learner at Rectron's Drone Academy, you will have the opportunity to:

### Responsibilities

- Participate in classroom and practical training sessions focused on drone technology, regulations, flight operations, maintenance, and troubleshooting.
- Learn to operate drones safely and proficiently under the guidance of experienced instructors.
- Gain insights into various applications of drones across industries such as agriculture, surveying, filmmaking, and more.
- Collaborate with peers on projects to enhance practical skills and knowledge.
- Comply with safety protocols and regulations associated with drone operations.

### Qualifications

- High school diploma or equivalent educational qualification.
- Passion for technology, specifically in drone technology.
- Strong interest in learning and developing skills in drone operations, maintenance, and applications.
- Excellent communication and teamwork skills.
- Ability to adapt to a dynamic learning environment.
- Candidates with prior experience or certifications in drone operations will be preferred but not mandatory.

### Job Benefits

- Comprehensive training and mentorship in drone technology.
- Practical hands-on experience with industry-standard drone equipment.
- Certification upon successful completion of the learnership program.
- Opportunities for career advancement within Rectron or associated partners in the drone technology sector.

### Contacts

1. **Prepare Your Application Materials:** Gather all required documents, including your resume or CV, cover letter, and any additional materials requested in the job posting.
2. **Review the Job Description:** Carefully read through the job description and ensure that your skills, qualifications, and interests align with the requirements outlined for the learnership.
